EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Balconi-Lamica on 18 August 2004. The application has been amended as follows:

In claim 16, after the step of removing the second portion of the undoped gallium arsenide layer and before the step of forming a spacer adjacent to the gate contact insert the following;

Forming a dielectric layer over the gate contact, the remaining first portion of the undoped gallium arsenide capping layer and exposed portion of the surface of the delta-doped heteroepitaxial semiconductor substrate;

Cancel claims 22 – 25.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: A method is claimed for forming a heteroepitaxial structure with delta doped layers, contact layers and spacing layers with specific thicknesses for the layers. The Abrokwa et al. references previously relied upon show similar structures but do not show the claimed layer thicknesses and therefore do not show the claimed method.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
